Hi everyone, is there a final version that's ready to print/send to GLEC co-chairs?

Thanks,

Carla

Next version of the Master PRP from Carla is attached. A change log is identified on pg 1 listing everything done/changes. Jamie has the correspondence from A5 re. Chris' edits to the A5 Foreign-flag vessel bullet, which weren't incorporated, if needed.

Also, attached are the Word files for Fig 1 and 2 – my machine is too archaic to embed these directly into the Master PRP (machine just hangs).

Hey Carla:

We're getting warmer, I think.

I did not focus on formatting, etc. There are still a few pending issues, and what I'd really like to do is get away from this for a day or so and then read it again with a clear head.

At some point we should get on the phone and go through it together to address any last blips and boops.

Thanks.

(**Jamie:** We still need to make the revisions to the text in the first figure in the document.)

Chris
